Descanso Gardens

Descanso Gardens is a place of year-round natural beauty, with internationally renowned botanical collections and spectacular seasonal horticultural displays. Accredited by the American Alliance of Museums as a museum of living collections, Descanso Gardens welcomes 950,000 visitors annually. The principal collections include California native plants and oak woodlands; one of the largest concentrations of camellia plants in the Western Hemisphere; a rose garden with specimens of modern and old roses; and significant presentations of lilacs, maple trees and cherry trees. The Gardens are operated by the Descanso Gardens Foundation, Inc., a 501(c)(3) nonprofit organization, in a public-private partnership with Los Angeles County.

Enchanted Forest of Light

Descanso by day has its own green and leafy charms. But when night cloaks the Gardens in darkness and the lights come up, the real magic begins. **Enchanted Forest of Light** is a light-show experience that highlights the natural beauty of Descanso Gardens' botanical collections. Making its debut in 2016, Enchanted has become a Southern California tradition attracting visitors from all over the country.

Our Mission At Descanso Gardens we connect people with nature and one another.

By the numbers
